## IB DP Geography – Human Triggers of Earthquakes

This is your short note taking frame for your two examples for this section. Your first example is of how dam building can trigger earthquakes and the second is the process of fracking. Use the resources on [ibgeographypods](http://www.ibgeographypods.org) to take your notes.

Example 1 – Dam Building & Earthquakes (PDF Report)	
Process	Place
Power	Possibility
	

Example 2 – Fracking & Earthquakes (Guardian Report)	
Process	Place
Power	Possibility
