IB Geography - Globalization – A Perfect Example?

"Globalization is the growing interdependence of countries worldwide through an increasing volume and variety of cross-border transactions in goods and services and of international capital flows, and through the more widespread diffusion of technology"

Task 1 – Can you think of the perfect product or service that encapsulates each element of the definition above?

countries become interdependent

increasing what they buy and sell with each other

Product or service
image here

resulting in the flow of money (capital) between places

and the sharing and take up of technology in those countries
