

IB DP Geography – Consequences Of Unsustainable Touristic Growth – Urban Hotspot - Venice

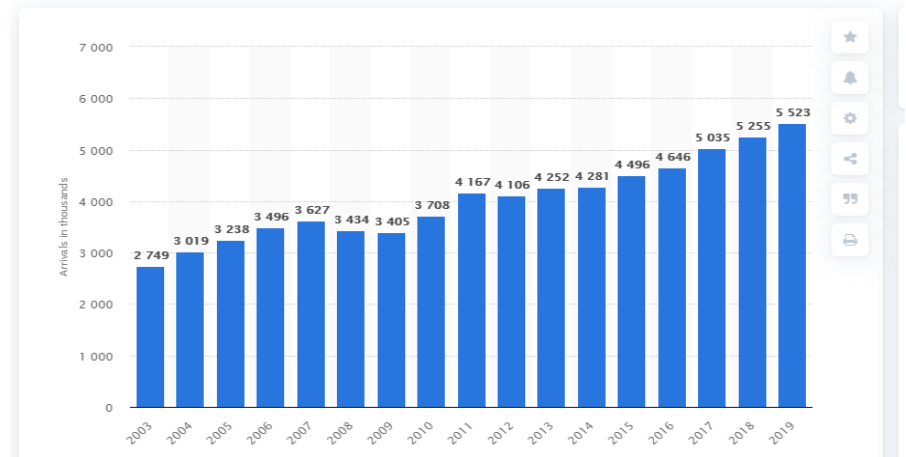

Task 1 – Outline the issues surrounding the carrying capacity of Venice.

Task 2 – Explain how the structure of the city impacts on carrying capacity.

Task 3 – Study the graph above right and describe the tourism trends shown making reference to total increase between 2003 and 2019. Suggest the likely origin of many of these tourists and link that to what you learnt about the rise of the middle classes earlier in the course.

Number of tourist arrivals in the Italian municipality of Venice
(in 1,000s)

Task 4 – Outline the main features of #EnjoyRespectVenezia – Use this [link](#). Continue on the next page.

Task 4 – Continued....

Exam Practice: Referring to one example, **discuss** the **strategies** that may be used to **manage the carrying capacity** of a popular tourist attraction in **an urban area** (10)
