

Name

Spatial changes in biomes, habitats and animal migration patterns

Biomes

Place	Process
Power	Possibility

Habitats

Place	Process
Power	Possibility

Name

Animal Migratory Patterns

Place	Process
Power	Possibility

Task 3 - Describe the movements on either of the two maps embedded on [ibgeographypods](http://www.ibgeographypods.org) and try to use prior knowledge to explain that movement in particular thinking about where the largest corridors of movement seem to be concentrated, the general direction of movement and linking in to the map showing shifting biomes in the previous section.
