

G10 Geography - Upskilling Beyond Our Lessons – May – June 2020

Here are a series of additional live webinars and students training that you could join over the next six weeks. Each is free but does require a time commitment on your part.

Date	Company & Explanation	Link to join up
<p>6th May 2020</p> <p>1 hour</p> <p>5-6 pm French Time</p>	<p>Discover The World Education</p> <p>Former lecturer in Tourism and Iceland specialist, Sarah Rimington will explore the role of perceptions in tourism management, with a particular focus on tourism in rural Iceland.</p> <p>Iceland will be a major focus of study for IST students when we complete Option E – Leisure, Sport & Tourism. You will be completing your Internal Assessment on this theme in Barcelona in 2021. This would be excellent additional knowledge & understanding.</p>	<p>https://www.discover-the-world.com/study-trips/education-webinars/</p>
<p>7th May 2020 – Every Thursday</p> <p><u>7 hours / 7 weeks.</u></p> <p>12pm – 1pm French time.</p>	<p>Ellen Macarthur Foundation</p> <p>Today, many businesses operate in a linear way — they take resources from the ground to make products, which we use and then throw away. The circular economy offers a different way forward. It is a new approach to designing, making, and using things that benefits the economy, society, and the environment.</p> <p>We study this in our core Geography lessons and if you are also studying Science and DT, this would be a superb addition. Also great for CV's and to add to University applications.</p>	<p>https://www.ellenmacarthurfoundation.org/news/calling-all-teenagers-do-you-want-to-build-a-better-future</p>
<p>11th May 2020</p> <p>1 hour</p> <p>5-6pm French Time</p>	<p>Discover The World Education</p> <p>Eyjafjallajokull Eruption and the Impacts 10 Years Later. This is one of the most famous volcanic eruptions of recent times given the impacts that it had on travel around Europe. This will be one of your case studies for Option D – Geophysical Hazards and would provide an excellent additional level of knowledge & understanding.</p>	<p>https://www.discover-the-world.com/study-trips/education-webinars/</p>

<p>To be announced</p> <p>1 hour</p>	<p>Discover The World Education</p> <p>Former lecturer in Tourism and Iceland specialist, Sarah Rimington will explore the fragile balance and dilemma of ensuring that travel is sustainable and responsible.</p> <p>It will be argued that social, environmental, economic, health and political factors all interlink and need to be in balance and harmony to ensure that meaningful solutions to tackling climate change are identified. We hope the information will help empower your students to critically think about the different issues.</p> <p>This will be of real use in our Option E – leisure, sport & tourism as well as linking to our core unit on global climate change.</p> <p>Keep an eye on the website for when it is going to be run.</p>	<p>https://www.discover-the-world.com/study-trips/education-webinars/</p>
